

## To Whom It May Concern

### Reference for Diogo Silva

Aveiro, January 9, 2021

I know Diogo Silva since he became a student of the Bachelor of Computer Science, at the University of Aveiro. It was to me a pleasure to had him as student in several courses, namely *Software Design Patterns*, *Software Engineering*, and *Advanced Databases*.

During 2020, he also engaged in a grant in our research group, in which he worked under my supervision, during six months. He contributed to a project that aims to create a web system over Pentaho Kettle.

He is a high skilled student and a very committed person and I have no doubts in raking him in the top 5% students.

**Therefore, it is with great pleasure that I recommend Diogo Silva for a scholarship.**

Yours Sincerely,

José Luís Oliveira

Full Professor, University of Aveiro, DETI/IEETA, Portugal
